

Marko Petrov

petrovmarko10119@gmail.com | github.com/petrovmarko | x.com/marcepetrov

Education

MSc in Computer Science -- FINKI, Ss. Cyril and Methodius University, Skopje

BSc in Computer Science -- FINKI

Focus: Algorithms, Machine Learning, Statistical Mathematics

Research Experience

Researcher, MANU (Macedonian Academy of Sciences and Arts)

- Statistical mathematics research applied to ML pipelines
- Published IEEE papers on statistical ML methods
- Collaborated on high-throughput drug discovery pipelines

Competitions & Awards

- IOI (International Olympiad in Informatics) -- Honorable Mention
- Kaggle Competitions Master -- 1 Silver Medal
- Competitive programming contests (Codeforces, ICPC style)

Projects

- LLM-driven recommendation systems -- designed and implemented end-to-end
- High-throughput drug discovery pipeline -- parallel data processing at scale
- Statistical math research -- novel methods for ML evaluation

Skills

- Languages: Python, C++, Java, JavaScript, SQL
- ML/Data: PyTorch, scikit-learn, LightGBM, CatBoost, pandas, NumPy
- Tools: Git, Linux, Docker, Kubernetes
- Competitive programming: algorithm design, graph theory, DP, number theory
